Ravi,
Attached is the presentation, agenda, and a 2 page document that provides excerpts from available documents on urban inputs for anthropogenic background. We were thinking the 2 page document may be helpful considering available EPA guidance does not elaborate on the definition of anthropogenic background. I will also remind everyone in the email that in meeting #4, we would like to hear from EPA what you'd like EWG to prepare to support discussion of sufficiency for meeting #5.

I'd like to send this out later today if possible. Please give me a call if you have any concerns

Thanks

Dan
